Planting Suggestions

Careful planning and site preparation are crucial for the successful establishment of trees. Developing a planting plan before ordering your trees greatly increases survival rates. Our team is happy to assist you in creating a customized plan that identifies the best planting locations, selects the most suitable species for your property, determines the optimal spacing between rows, and recommends a practical watering strategy.

*We appreciate your continued support of our annual tree sale!
 You may notice an increase with the prices of a few of our trees this year.
 This change is primarily due to higher shipping and transportation cost
 as many of our trees travel a long distance to reach our office.
 We sincerely appreciate your understanding,
 if you have any questions, please let us know.*
